

The 21th European Sport Science College congress was held in Vienna (Austria) from July 6 - 9, 2016 representing more than 2000 participants from the world. The presentation on the Norway grant project “Health and social indicators of participation in physical activities for children with disabilities” (NFI/R/2014/070) was included in the Invited Session.

Aija Klavina,

chief researcher of the project, had 20 minutes presentation about the project progress and obtained results. Participants of the congress had interest about the interdisciplinary research approach and comprehensive project outcomes. Also, A.Klavina met with the chief of the Sport Education department from the NSSS to discuss the progress of the scholarship (nr.

EEZ/NFI/S/2015/021)

and the research project. Next visit to the NSSS will be organized in early September within frame of the scholarship project. Prof. Aija Klavina and lecturer Karīna Rodionova will teach and meet with the staff at the NSSS. They also will participate in the National conference of adapted physical activity in the Sport Rehabilitation Center Beitostolen, while also meet with the administration of the center.
